"Done It Right"

(Mark McGuinn/Don Perimmer/Shane Decker)

I'd quit a job in a New York minute
I'd burn a bridge for a dream
I ran away and I'm glad I did it
I might have never found me
I ain't afraid to fall flat on my face
That's just part of life
Think of the winners that did it wrong
What if they'd done it right

What if Columbus gave in and gave up
And Rosa had moved to the back of the bus
And Martin stopped marching
And Elvis drove trucks
What if they'd done it right
Done it right

I ain't afraid to lock horns with the Devil
I'll spit into the wind
I ain't ashamed to say grace at my table
The Lord ain't no fair weather friend
Don't believe you can get too much love
But you can get too much advice
No man would have ever set foot on the moon
Hey, what if they'd done it right

What if Columbus gave in and gave up
And Rosa had moved to the back of the bus
And Martin stopped marching
And Elvis drove trucks
What if they'd done it right
Done it right

John Lennon, Babe Ruth, James Dean
Do you need more proof

What if Columbus gave in and gave up
And Rosa had moved to the back of the bus
And Martin stopped marching
And Elvis drove trucks
What if they'd done it right

Done it right
