I'm stupid and not too good at this  
it's one thing I can't kiss to make it better  
but if I kiss you will you feel better

You know I wouldn't ever mean to make you cry I'm  
sorry I know that doesn't make it alright  
how can I make this alright

But if I take it all back can you take me back  
I take it back now I don't want you to see me like this I  
know  
I could just give it right back with a kiss  
I know the taste of your lips  
I take it back now make this better  
Your guns at my head with your hand on the trigger  
and I don't want you to see me like this 'cause I know  
the taste of your lips  
It's hard when all we do is talk  
And somehow that's all you want  
well if that's all you want

I don't want you to see me like this 'cause I know  
I could just give it right back with a kiss  
I know the taste of your lips

She looks at me with her eyes full of tears  
and tells me to forget it  
that everything will work out  
Well how am I supposed to forget that?
