Baby baby, will this love survive?  
Oh you make me crazy but I feel like paradise.  
Baby maybe you're the owner of my heart,  
Sooner or later oh I know you break my heart.  
I can't stop love, take me to the clouds above,  
Baby baby I can't stop love, baby I can't get enough.

Get out of my bed now, bed now  
Get into my dreams tonight,  
Come give me some love joy, love joy,  
We're dancing side by side.  
Get out of my bed now, bed now, get into my life  
tonight,  
I'll be your love toy, love toy, come let it feel alright.

Lady, lady, this love is so bizarre, coz you're so lazy,  
behaving like a superstar.  
Lady lady, what you give is what you get, now or never,  
oh you driving me so mad.  
Step by step your love will drive me mad, baby step by  
step, please don't make me sad.

Get out of my bed now, bed now  
Get into my dreams tonight,  
Come give me some love joy, love joy,  
We're dancing side by side.  
Get out of my bed now, bed now, get into my life  
tonight,  
I'll be your love toy, love toy, come let it feel alright.
