It's not easy use that blood thing mean
It's not easy if you lose what you need ohh
It's not easy you're my heart's desire
Ohh why can't we be lovers, you're like said, you're like
fire

It's not easy when you friends are gone
It's not easy when your heart's going wrong
It's not easy which way I'm going
When this dance is over, Is the fire growing?

[Chorus]

Baby why can't we live together, forever
Baby why you break this lonely heart
Baby why can't this be a now or never
Baby why you tear apart

It's not easy why those fool for their love
It's not easy when you can't get enough ohh
It's not easy when you lose that feelings
When it feels like heaven
But for you it lost that meaning

It's not easy 'coz you've stolen the sun
It's not easy where should we run ohh
It's not easy my magination
Why can't we be lovers
It's a sad sad situation

[Chorus]

Baby why can't we live together, forever
Baby why you break this lonely heart
Baby why can't this be a now or never
Baby why you tear apart

Why can't we live together, forever
Baby why you break this lonely heart (baby why baby
why baby why...)
Baby why can't this be a now or never
Baby, why you tear apart
