"Just A Man"

Visit "[Just A Man](#)" on MotoLyrics.com

Done some things in my life that im ashamed of,
All the money and the women thought i could not fall,
Livin lives was just caught up in the game of
Always takin neva givin wasn't real at all
All im askin for is one more chance
To show to you the best of who i am
At the end of the day im just a man
And im standin here before you with my heart in hand
I wanna be your destiny some one to understand
For you i would try to be a good man
I am serious about this situation
Gonna make sure i give the very best to you
I wanna fill your life with no complications
If you let me show and prove I'll be there for you
All im askin for is one more chance
To show to you the best of who i am
At the end of the day im just a man
And im standin here before you with my heart in hand
I wanna be your destiny some one to understand
For you i would try to be a good man
Man
At the end of the day im just a man
And im standin here before you with my heart in hand
I wanna be your destiny some one to understand
For you i would try to be a good man
At the end of the day im just a man
And im standin here before you with my heart in hand
I wanna be your destiny some one to understand
For you i would try to be a good man
