This is the time, this is the place  
I'm letting go and giving thanks  
With all I am and all I have  
Is an open heart and empty hands

### CHORUS

And I don't know when I'll see you  
But I'll be hoping that you are ok  
And If for some strange reason we should part  
Always know you're in my heart

Cause where I'm from  
Things don't change  
You just grow old and stay the same  
The same old town, the same old place  
I'll miss it all  
But, man, I'll miss your face
