What became of your decision, to upset the cards so  
willing  
Hallelujah  
All the apples fell out on the highway, a little scared, a  
mighty upstart  
Hallelujah  
Another trip to someone else's dark side, another  
come off false love  
Hallelujah, oh yeah  
It's hard to ride at night, on your bicycle with no lights  
to guide  
Just take a chance and ride, on your bicycle with no  
lights to guide  
Oooo  
Hit the way you want to stay, and pup a tent in another  
state  
Hallelujah  
Walking in the apple blossoms up to your shoulder,  
You and I really did see our side  
Hallelujah  
What to think, who to know, who really minds some  
obscene phone calls  
Hallelujah, yeah  
It's hard to ride at night, on your bicycle with no lights  
to guide  
Just take a chance and ride, on your bicycle with no  
lights to guide  
Oooo  
Bridge  
It's hard to ride at night, on your bicycle with no lights  
to guide  
just take a chance and ride, on your bicycle with no  
lights to guide  
Oooo
