In all the time I've known you  
And loved you from afar  
Let me go now let me stay  
Let me go back on your way

I know 'cause I'm getting lost  
In the moment of your smile

You're my bluebell morning  
You're my bluebell song  
You're my bluebell morning  
You're my bluebell song

Walk along the highway  
Make the silence ring  
Let me go now let me stay  
Let me go back on your way

There is our life together  
The colours that you bring  
Now listen for the spring

You're my bluebell morning  
You're my bluebell song  
You're my bluebell morning  
You're my bluebell song
