Linda Lee has a fountain made of stone  
She built it all herself  
But she was never alone  
You'll have more friends now  
May you never have less

CHORUS:

Linda Lee she has a fountain  
And we go there all the time  
To Linda Lee's now  
We'll be back real soon  
Gone to Linda Lee's now  
We'll be back real soon  
People gather holding hands  
At Linda Lee's  
Stand around a circle  
And they look up at this thing  
She carried every stone  
And a couple of more

REPEAT CHORUS

In this walk of life  
There's another side that you've been on  
There's a sadness in your eyes this time  
Are you changing that whole song

Oh the dark clouds immortal  
And the lane  
For the live one that cares  
And just then called your name  
Cause this is one friend that knows just where you been

REPEAT CHORUS

In this walk of life...

REPEAT 1st VERSE & CHORUS
