"Morning Dove"

Visit "[Morning Dove](#)" on MotoLyrics.com

A morning dove camped beside my door
I'll light up my candles

Praise the love and praise the light of the day
Praise the love and praise the light of the day
My home is by the fountain
My home is by the fountain
There is my home
My loved one walks on water
My loved one walks on water
Be still we will know our lives are true

Leaves will spin and move around our stairs
There are dark dreams from childhood

Praise the love and praise the light of the day
Praise the love and praise the light of the day
My home is by the fountain
My home is by the fountain
There is my home
My loved one walks on water
My loved one walks on water
Be still we will know our lives are true

Our lives have meaning fixed behind a veil
We transcend by giving to others

Praise the love and praise the light of the day
Praise the love and praise the light of the day
My home is by the fountain
My home is by the fountain
There is my home
My loved one walks on water
My loved one walks on water
Be still we will know our lives are true
