Will you remember me?  
No it's getting hard to see  
There's a light that shines  
There are dreams untold  
Dreams that rise up to the sky

There's no time reason or rhyme  
There's no time reason or rhyme  
No time to live without her

Where will you go to when?  
All your leaves are colored red  
There's the kindest word  
That brings in the tide  
That lays bare the cold thorn tree

There's no time reason or rhyme  
There's no time reason or rhyme  
No time to live without her

I call your name  
Our footstep song  
Follows us home

There's no time reason or rhyme  
There's no time reason or rhyme  
No time to live without her
