There's a lot of light  
But no rain in the sky  
A friend comes by and we keep him inside  
The dogs are chasing the furrows

CHORUS:

If you look now you'll see I'm on your side  
Each cloud that passes us by  
Trying to find the rainbows of your heart  
Hope all these words I say will hurry home  
And I'll show you that I care  
There's an off road down in the wash  
The blackbirds stayed all winter long  
We dragged out an old army cot  
We faced it east to see the sun rise

There's no red sky this morning

REPEAT CHORUS

There's no red sky this morning

REPEAT CHORUS

Trying to find the rainbows of your heart  
Trying to find the rainbows of your heart  
Trying to find the rainbows of your heart
