Broken string that could be tied together  
Houses need paint that stand out there by the river  
Once I knew a child back then  
Who spent all day long in the kitchen  
Holding hands  
He had someone to talk with  
Who brings the sunshine that keeps us warm  
Who brings the rain that washes down the road  
Someone who knows most of what you need  
Before you lost it by yourself  
When you can't believe  
Trouble drops like a stone  
Don't go sinking your tomorrows

Once I knew a child back then...  
There's a snow melt stream that could stand up ???  
toothpicks??  
There's an innertube tire that's punctured and needs  
fixin  
Someone who knows...  
Trouble drops....  
Once I knew...  
He had someone to talk with  
He had someone to talk with  
He had someone to talk with
