"Walking Through Nevada"

Visit "[Walking Through Nevada](#)" on MotoLyrics.com

Walking through Nevada when you're away
Keep looking for 49 Palms
Honeybee honeybees
In every tree there's honeybees
Do you remember how we hid from the sun
Behind a rock there
Abandoned shack out on 62
There must be morning doves that live there
Morning doves morning doves
In your eyes there's morning doves
Do you remember how we hid from the sun
Behind a rock there
Both carried a jar of water
Running into each other

Both carried a jar of water
Running into each other
Running through a canyon in the sun
Everything that's down here that turns to a lake of salt
In your eyes in your eyes
Can I stay there all the time
Do you remember how we hid from the sun
Behind a rock there
Both carried a jar of water....
Walking through Nevada when you're away
