I feel an untold story
Every time we kiss
I taste something strange
You're leaving on my lips
Now we're gonna hit the bottom
When you tell me what it is
I recommend that you trust me
And take a risk
We better dig right down
And get to the bottom of this

Get to the bottom of this.
Get to the bottom of this

I'm hanging out to dry
Waiting for the word
I'm trying to make a lick of sense
Of anything I've heard
Ill believe it when you tell me baby
Then I can be sure
Before we lose each other
By not saying what it is
We better dive right in
And get to the bottom of this

Get to the bottom of this.
Get to the bottom of this

Tell me tell me now. Help me
Get to the bottom of thisâ€¦
