You stand on the edge,
You've followed the call
No turning back, you are risking it all
He whispers your name
In a moment of truth
The rocks fall around you
The ground starts to move

You step out on faith
It's all that you know
You jump into darkness and hold onto hope

Chorus:

When the mountains fall
When the rivers rise
Security crumbles before your eyes
One thing you know
In faith you'll find
Something to stand on
Or you will be taught to fly

So dream your dreams
And live your life
Knowing there's more than to merely survive
Don't give up, don't give in
Fight through the rain and lean into the wind
Til you come to the edge of all that you know
Run right through the dark knowing you're not alone

Chorus:

When the mountains fall
When the rivers rise
Security crumbles before your eyes
One thing you know
In faith you'll find
Something to stand on or you will be taught to fly

When you walk through the fire
It will not consume you

Though the water will rise
It won't overtake you
Though the mountains will fall
Oh, still I am with you
I've called you by name
And I will not leave you

I'm learning to trust you, I'm learning to fly
I'm learning to trust you, I'm learning to fly

Chorus
