

Mark Vance "Forever"

Visit "[Forever](#)" on [MotoLyrics.com](#)

I'm sittin' here helpless
Caught in my pain,
My tears caused a river
That's flowing in vain
And I'm feelin' my sorrow
From head to toe,
Cause there's so many things
I need you to know
How you'd write love letters
To me all the time,
You'd leave them in places
You knew I would find
You'd light up like a child at the first fallen snow,
Now my heart won't stop breakin'
And I need you to know

All the time we spent in each other's hearts
And the way we felt
When we were apart
Oh if I'd only told you before you had to go,
I'll love you forever
I need you to know

I sit here and think of
The way you would laugh
The way that you'd linger
For hours in the bath
How you'd draw little hearts
On the mirror with soap
I loved all these things
And I need you to know

All the time we spent in each other's hearts
And the way we felt
When we were apart
Oh if I'd only told you before you had to go
I'll love you forever
Yes I'll love you forever
I need you to know
