"Our Time Will Come"

Visit "[Our Time Will Come](#)" on MotoLyrics.com

As I wish upon a star,
Wondering where you are,
I know our hearts will lead the way,
And our time will come.
When I think of you I know,
No matter where you go,
I know our hearts will lead the way,
And our time will come.

I've always known that you'll love me,
We just can't change what will be, will be
I can see you in my dreams,
And as hard as it may seem,
I know our hearts will lead the way,
And our time will come.

I just can't live without you
I know this love will be true, be true
As I wish upon a star
Wondering where you are,
I know our hearts will lead the way,
And our time will come
