Can we make this dream come true?
Is my destiny with you?
Will our hearts finally meet?
Is the journey we've been on complete?
Ooo girl....Only Time Will Tell

Will there come a day for us?
Forever feelings that we trust?
Can we let our souls run free?
Will you give your love to me?
Ooo girl....Only Time Will Tell

If we allow the sun to shine
If you can make your future mine
If all the stars light up for us tonight
Time Will Tell

A million miles between our souls
Will the journey soon unfold
Ooo girl....Only Time Will Tell
If we allow the sun to shine
If you can make your future mine
If all the stars light up for us tonight
Time Will Tell

Can we make this dream come true
Is my destiny with you
Ooo girl....Only Time Will Tell....
