Verse 1:

You have been so good to me
How can I find the words to thank You?
Healer of broken hearts and broken dreams
Lord, I will never cease to praise You.

Chorus:

With You, all things are possible.
Like an eagle I can soar.
With You the giants fall
They rise no more.
With You I overcome when fear and faith collide.
There's nothing I can't do
Anything is possible with You.

Verse 2:

I am constantly amazed
You are a God forever faithful.
As I look back on my history of grace,
how could I be anything but grateful?

Chorus

Verse 3:

No mountain is too high, there's no valley that's too
deep
You're calling me to walk by faith so I will take a
Leap...take a
Leap

Chorus x2

Anything, anything is possible with You
With You
It's possible with You.
