From the Tom Sawyer soundtrack (with Rhett Akins)

You and me we're birds of a feather  
As natural as honey to a bee  
You won't see one without the other  
And that's the way it's always gonna be

Chorus:

'Cause we're friends for life  
Heading down the road together  
Anywhere we are is paradise  
Ain't it nice, dreaming dreams with each other  
Come what may we're gonna be alright  
'Cause we're friends for life

Well you sure can pull a catfish from the river  
You know how to read and write from school  
And when we put our heads together  
Buddy there ain't nothing we can't do

Repeat Chorus:

Well Huck I wouldn't be afraid to swim the river  
Or sail a little boat across the sea  
You know I'd even face a fire breathing dragon  
As long as you were facing it with me

Repeat Chorus:

Yee Haw!  
Oh, we're friends for life  
Oh, just you and buddy, we're friends for life  
Ah, We're friend for life  
Ah, we're friends for life
