"I Want To Know"

Visit "[I Want To Know](#)" on MotoLyrics.com

what stations are the buttons of your radio on
do you sleep late on saturday or get up at dawn
do you prefer fiddles or violins
and have you givin any thought to how a lifetime of
love begins

(chorus)

i want to know everything there is to know about
what turns you on
what you like and what you don't
tell me all your secrets
all your hopes and wishes too
i want to be everything you ever want
so i'm gonna need something to go on
i need to make your every dream come true
so i want to know everything there is to know about you

do you like walking underneath the moonlight
is there some kinda magic that'll make the mood right
how many kisses, how many stars
i'm determined to keep trying 'til i find the way to your
heart

(chorus)

the serious stuff and the light hearted
lookin in your eyes and i'm just gettin started

(chorus)

well then i want to know everything there is to know
about you
