Open my heart,
I open my heart
Take what my eyes can see
Here are my hands
There are my bags

Saddle up girl
Saddle up girl
Saddle up girl for me
The craziest things... they say the craziest things!

But oh no...
If you go you go for good

When you can you stay away
There's no excuse, no second chances
And I?
I do what I have to

The rivers run dry
The plains are as wide and high as the eye can see
The strangest things... I see the strangest things
