One love  
One love  
I believe in love

Why  
I don't know why  
I let you go  
I let you take the morning train  
Leave me alone  
My broken heart  
Tell me why

I don't know why  
I let you go  
Can't stop  
You fill my heart again  
Kissing your lips  
Whispering love  
I love you

One love  
Is still in my mind  
One love  
And it's burning inside  
One love  
I believe in love  
Loving you  
Loving you  
One love  
Is still in my mind  
One love  
And it's burning inside  
One love  
I believe in love  
Loving you  
Loving you

Why  
I don't know why  
After so long  
And you're so far away from me

And all around  
There's only dark  
Where are you

After so long  
Feel deep inside  
Ohh stay together  
Was so good

Baby c'mon  
I just wanna say  
I love you

One love  
Is still in my mind  
One love  
And it's burning inside  
One love  
I believe in love  
Loving you  
Loving you  
One love  
Is still in my mind  
One love  
And it's burning inside  
One love  
I believe in love  
Loving you  
Loving you
