Heartstopper
I'm ready
So don't fake it
A straight offer
Come on and say it
Rock steady
So let's fly
First class
With no ticket
Midnight
Lights flashing
Easy now easy now easy now

Yeah, don't be cruel, baby, you got me started
And now I can't stop it
Yeah, cause you're leavin' me all broken hearted
You say you only wanna dance

Heartstopper
You presence is contagious
Blindfolded
All logic
Is gone fishing
So hold tight
Don't ruin my mission
You push
My limits
Easy now, easy now, easy now

Yeah, don't be cruel, baby, you got me started
And now I can't stop it
Yeah, cause you're leavin' me all broken hearted
You say you only wanna dance

You say, you only wanna... yeah
