"Killing Time"

I'm waking up, it's afternoon.
Got things to do but it's too soon.
I ain't got time, it's all too late.
So I fall asleep at least that's an activity.

I'm just killing time.
Being occupied by killing time.
The best I can do, it's all I do
Killing time.

Finally I'm out of bed.
Had things to do, but there's the moon.
I realize it's getting late,
so I fall asleep, away goes inactivity.

I'm just killing time.
Being occupied by killing time.
The best I can do, it's all I do
Killing time.

But tonight
I'm going out.
And gonna let weekdays be weekends
or the other way around.

I'm sick of killing time
Being occupied by killing time.
No longer afraid,
I'm done with killing time.

I'm sick of killing time.
I'm done with killing time.
