"Beautiful World"

Visit "[Beautiful World](#)" on MotoLyrics.com

In the morning
Hope is whispering to me quietly
Some confusion
Seems to reign continuously over me
Though I walk through the valley
No more shadows will cover me
Now you've opened my eyes

CHORUS

It's a beautiful world
When I've got you here to hold
It's a beautiful world
Where all Heaven's light is shone
It's a beautiful world
When I've got you here to hold
It's a beautiful world
When I just let love take control

In the evening
Faith is watching over me, I believe
As I'm lying
In arms of security I can see
All (w'all lol) the ways you have given
In my hour of blinding need
Now you've opened my eyes

(CHORUS)

The only way to hope is through tears
The only way to faith is through fear
The only way to love is when you kneel
Now you've opened my eyes

(CHORUS)
