"Sundrop"

Visit "[Sundrop](#)" on MotoLyrics.com

I felt big today
Like I was ocean size
You were far away
A sundrop in the sky

It's the little things that heal me
Pick me up when you're near me
I can't explain the frequency
It seems so few and far between

I got drunk again
Thinking you were god
You make me make believe
It's you I'm dreaming of

It's the little ways you tempt me
Make me feel like I were empty too
I can't explain the ways you fell me up
And make my heart go boom
Tall talk

It's the little things that heal me
Pick me up when you're near me
I can't explain the frequency
It seems so few and far between
It's all talk
It's all talk
