he's gonna knock you  
he's gonna knock you  
he's gonna knock you out the tiger  
he's gonna knock you out (no doubt) x3

whoah oh x8

up in the ring there's no peace it's all about survival  
and who is the best in this physical contest  
which man can with stand the pound  
get n hit with his fist for 12 long rounds UH  
to the body blows to the face  
leather in your mouth it leaves the after taste of  
his furiated determination with no hesitation

bash ya face in

with one hand make ya scab on ya back  
you can't with stand this type of attack  
you see he started at the in age of twelve  
had to put the gloves to protect himself  
that's why he's tired navious  
he don't play

him in the shit he'll beat you down with no delay  
until you knocked out  
stirpped to your ?  
there's no survior who'll beat the tiger

whoah oh no mercy
