Make me a dress  
With wings of fire  
And watch me burn away  
Watch me fly  
I'm not like you  
I can close doors

And this goes round without me  
This works fine without me  
Not without you

Give me a scarf of worms  
And watch me dig the way in my hole  
Perfect size  
Perfect shape  
Around me

'Cause this goes 'round without me  
This works fine without me  
This goes 'round without me  
Not without you  
Not without you

I don't come out in my pictures  
I don't go 'round with the clocks  
You don't need me anymore

'Cause this goes 'round without me  
This works fine without me  
This goes 'round without me  
But not without you  
Not without you
