"Tip Toe"

That time when you can hear footsteps
And deep breathing
That time when shadows grown
When sleeping pills hold me like a baby
Open arms twisted dreams
Tip toe_tip toe_tip toe_tip toe_tip toe
Tip toe around the clocks, tip toe
Don't make them tic fast

That time when you can gaze around your life
From deep under your blankets
That time there's nothing you can do
Nothing you can mend
All is still and full
Tip toe
Tip toe around your bed, tip toe
Around yourself
Tip toe
Don't wake yourself up
