Poetry of politics and lost entities Government is loneliness on this we agree High are the angels and low I decree Love only burns when fueled by belief

Home, welcome home
Take a little walk, take a little walk
Right through our home, this is home
Take a little walk, take a little walk
Right through our home

Climb up the mountains, then slide to the seas Beauty adores us on this, we agree God is a witness and God is a tease Pick up your faith, yeah, everybody come with me

Home, welcome home
Take a little walk, take a little walk
Right through our home, this is home
Take a little walk, take a little walk
Right through our home

Home, home Home, home Home, home

Home, welcome home
Take a little walk, take a little walk
Right through our home, this is home
Take a little walk, take a little walk
Right through our

Home, welcome home
Take a little walk, take a little walk
Right through our home, this is home
Take a little walk, take a little walk
Right through our home
