Had a thought but it hurts so I let it go
Let it go, let it go, go
See I don't need these verses
Laying down the blues on me today

Oh, I'm never here alone
I thought I heard some angel sing
You'll never be alone
I know I heard my father sing
I'm never here alone
Oh, I'm never here alone

I have a scar, yeah, a scar so I let it show
Let it show, let it show, show
See, I don't need tomorrow
Feel it from my pain of yesterday

Yeah, I'm never here alone
I thought I heard some angel sing
You'll never be alone
I know I heard my father sing
I'm never here alone
Yeah, I'm never here alone

I'm starting backward against
Gonna give me those blue skies
Yeah, those blue skies again

Oh, I'm never here alone
I thought I heard some angel sing
You'll never be alone
I know I heard my father sing

I'm never here alone
I'm never here alone
I know I heard my father sing
I'm never here alone
I'm never here alone

Three, four
