Hitched a ride to the peaceful side of town
Then proceeded where thieves were no longer found
Can't crash now I've been waiting for this
Won't crash now I found some encouragement

Precious declaration reads
'Yours is yours and mine you leave alone now'
And precious declaration says
'I believe all hope is dead no longer'

New meanings to the words I feed upon
Wake within my veins elements of freedom
Can't break now I've been living for this
Won't break now I'm cleansed with hopefulness

'Cause the precious declaration reads
'Yours is yours and mine you leave alone now'
And the precious declaration says
'I believe all hope is dead no longer'

Once I jumped threw hoops of fire
As high and far as you required
I was blind but now I see
Salvation has discovered me

And the precious declaration reads
'Yours is yours and mine you leave alone now'
And the precious declaration says
'I believe all hope is dead no longer'

Precious declaration reads
'Yours is yours and mine you leave alone now'
And precious declaration says
'I believe all hope is dead no longer'
