The hour has begun
Your eyes have now opened

To a world where madness craves
To a world where hope's enslaved
Oh I tremble for my love always

Your windows opened wide
Your innocence takes flight

To a world where madness craves
To a world where hope's enslaved

Oh I tremble for my love always

It's a world where madness craves
It's a world where hope's enslaved
Oh I tremble for my love always

It's a world where madness craves
It's a world where hope's enslaved
Yeah I tremble for you love always
