In the air, I'm tasting your perfection  
Forgive me dear for my misdirection  
As I crawl beneath this torture you adore  
I fall face to face with my scars you've ignored

So tell me why it don't feel the same  
Tell me why I've got to feel this way  
Yeah you leave, you're gone and I'm left here with the  
blame  
So tell me why it don't feel the same

All my props, I swear they were in order  
Even with the warnings of your thunder  
Now I pause to let my silence scream tonight  
Awhile you roam like a serpent satellite
