The Marmalade - lovin' things

It's the lovin' things you do  
That make me grow so close to you  
Gonna want you my whole life through  
For the lovin' things, baby, that you do

It's the lovin' things you say  
That give me comfort every day  
By your side I'm gonna stay  
To hear the lovin' things, baby that you say

Since that day our love began  
I've become a new and happy man  
I can hold my head up high  
When you are near I touch the sky

With your soft and sweet caress  
You brought me such tenderness  
To think I was once forsaken  
With your kiss I've been awoken..

Chorus

(Instrumental)

Then you walked into my life  
Said how you'd soon end all my strife  
With a smile from your young face  
You gave me back my inspiration

It's the lovin' things we share  
That assures me how you care  
Our friends call us the perfect pair  
For the lovin' things, baby, that we share

(Instrumental)

Chorus
