Title: My little one

She knows, she grows, she likes the hours
With a little bit of loving from her mother
my little one she never bothers
about the things that worry you and me
she sings this little song that floats along, it's quite a
song
and know she's gonna be as free as yesterday
and I know in my mind
it's gonna be that way
do I, do I, do I, do that day
this is the way she blows the cares away
do I, do I, do I, do that day
this is the way she blows the cares away
my little one you must be tired
with al the fun and games you had today
I lye awake and dream about you
And what you'll be when you're old as me
she sings this little song that fos along, it's quite a
song
and know she's gonna be as free as yesterday
and I know in my mind
it's gonna be that way
do I, do I, do I, do that day
this is the way she blows "â€¦" away
do I, do I, do I, do that day
this is the way she blows "â€¦" away
