Artist: The Marmalade

Title: Radancer

I saw a girl on a Northern dancefloor
She looked 16 she could have been more
I went to her thinking only of romance
But when the band played, man, I didn't stand the
chance
All she wanna do was

Dance, dance, dance, you ought to see her dance
Dance, dance, dance, move over, give her a chance
Well, the people all stood around
Watching her lay it down
She could dance, dance, dance the night away

I tried to show some genuine affection
Could be a chance of a close connection
I didn't know she was there for just one thing
'Cos when the band played, man, you ought to see her
swing
Swing down easy

Dance, dance, dance, you ought to see her dance
Dance, dance, dance, move over, give her a chance
Well, the people all stood around
Watching her lay it down
She could dance, dance, dance the night away

And when the dance was nearly over
I decided I was really gonna show her
I took a drink and I went to join the fun
That's when the fun had just begun
And when the band played, man, I was second to none

Dance, dance, dance, you ought to see me dance
Dance, dance, dance, move over, give me a chance
Well, the people all stood around
Watching me lay it down
'Cos I could dance, dance, dance the night away
Dance, dance, dance the night away

Dance, dance, dance the night away

Dance, dance, Watusi baby

Dance, dance, funky mofa

Dance, dance, read your Sunday papers

Dance, dance, Desperate Dan's

Dance, dance, shake it, baby

Dance, dance, rock n roll

Dance, dance, see you later
