Met her in the dance hall, looking so sweet
From the stars in her make-up to the ball on her feet
We danced until midnight and then we went home
Just me and my Sarah left all alone

Sarah, my Sarah, my Sarah, my love
It's you I depend on
like the light from above
Sarah, my Sarah, my Sarah, my love
It's you I depend on
it's you that I love

The morning came quickly and my Sarah had left
Leaving me lonesome with the tears on my chest
How long can one night last but with two locked in love

Till the sun
the gray clouds on the heavens above
Sarah, my Sarah, my Sarah, my love
It's you I depend on like the light from above

And often I wonder where she did go
Did she fall for another perhaps I don't know
But one thing's for certain and this is no lie
One night with Sarah has left a lifetime to cry

Sarah, my Sarah, my Sarah, my love
It's you I depend on like the light from above
Sarah, my Sarah, my Sarah, my love
It's you I depend on it's you that I love
