In the beginning it was only science
They started to analyze the psyche of children
How they act in fear
This fear that all children have to share
In all the times
In all the cultures
An irrational fear
The fear in darkness
ANGST

Seven innocent children
In the circle of ouruboros
Their throats cut from loving hands
The sign, the old occult symbol
Back to origin and chaos
They all must die

Darkness from loving hands
The evil i purify
Annually
The ouroboros
Darkness
Purify
Save them from ouroboros

Their throats cut from loving hands
The sign, the old occult symbol
Back to origin and chaos
They all must die
In all the times
In all the cultures
The new level
The new level
