Visit "[Children Of The Next Level](#)" on MotoLyrics.com

Faces dead, bodies covered by purple cloth  
Identical black suits, Nike shoes and the member  
armband

Sweet juice and nice, a poison drop  
Don't forget it for secure  
Plastic bags around the heads  
And the suicide can begin

This is the Heaven's Gate away team  
A voluntarily underwent, castration inclusive

WELCOME NEW WORLD  
WELCOME DEATH  
WELCOME NEW WORLD  
WELCOME HEAVEN

Something is waiting behind this star  
To bring us to a better world

Sweet juice and nice, a poison drop  
Don't forget it for secure  
Plastic bags around the heads  
And the suicide can begin

Before the earth would be recycled  
We are the children of the next level

Bring us all to your better world  
Before the earth would be recycled
