I lost control, I can not change  
Between what's wrong and right  
I don't feel any compassion  
I don't feel at all

In my head there is no difference!  
In my chest there beats nothing  
In my chest, In my chest, In my chest  
There beats nothing!

I always sleep without remorse  
As violence is immortal, this violence is my power!  
I don't select  
You could be next

Leave you scared as I move on  
Leave you broken as I go on  
Leave you scared as I move on

I will not stop, you can not judge me  
They make me love, your screams for justice  
Your laws will never do me harm

Leave you scared as I move on. Leave you broken as I  
go on [3x]
