If she's gonna stay in bed all day
If she's gonna leave you come what may
Many questions Ã,Â" many answers too
Computer knows and tells her what to do

Press yes: credit card number
Press yes: enter your name
Say yes: will you make her happy?
She's gotta know before you'll be the new flame

She reads the
Stars in your sky
Don't be afraid 'cause computer knows
If her
Love get's alive
Depends on what her computer shows

If she lets you to her secret place
If she takes you now or not today
If you are the reason for her smile
Or if you are a flop and she'll be dry Ã,Â" haha

Computer knows Ã,Â" computer knows
When somebody is in need
Computer is your one ad only friend!
