In their bedroom  
They reformed his face  
Into a picture  
Turning him in every direction  
We know when, why, what  
Is God for you

His head is working overtime  
Soul come true and decide

It's just grown up  
Attitudes revealing  
Brain-deadness  
Showing up in every reflection  
Refuse  
Little sweet inspiration

His head is working overtime  
Soul come true and decide

God gave me a sign  
Everything is in time  
One and one is not two  
Might be three, might be you

God gave me a sign  
Everything comes in time  
In a second it's done  
Seven souls will be one

Answers  
Inside you, by  
Posing the question  
And I wanna show you  
That this self-made agony  
Is catchin' up with me  
Time to take refuge

His head is working overtime  
Soul come true and decide

God gave me a sign

Everything is in time  
One and one is not two  
Might be three, might be you

Got gave me a sign  
Everything comes in time  
In a second it's done  
Seven souls will be one

After one step  
There's another  
Sometimes up sometimes down  
You've got to  
Paint a picture  
Create e self-made sun  
Will send you light  
No reasons for a fight

God gave me a sign  
Everything is in time  
One and one is not two  
Might be three, might be you

Got gave me a sign  
God gave me a sign  
God gave me a sign  
Everything is in time  
One and one is not two  
Might be three, might be you

Got gave me a sign  
Everything comes in time  
In a second it's done  
Seven souls will be one
