[Exhaling]

I dont know how to say this....
Baby, I'm sorry but I cheated.
I don't know what the fuck is wrong with me.
Check it out.

[Chorus 1]

Babygirl I know I use to do some ill shit to you.
Coming home jumping in the shower
ta wash off the last chicks perfume.
Changing mah draws
Stuff 'em down to the bottom of the hampter.
Taking numerous trips to Atlanta, Miama, Tampa.
Girl I was doing mah thing.
Then I seen the pain in ya brown eyes.
Made me realize I
That I was breaking you down
What goes around comes around
And girl when I lost it all, you never walked away
Baby you stood ya ground yeahhh

[Hook]

Girl I know I cheated on you before
I cant say I wont do it again
Stick by my side girl I know I can change
Sometimes I don't know what the fuck is wrong with me
Girl I know I cheated on you before
I cant say I wont do it a-gain
And what would I do-o without you yeah

[Chorus 2]

I know I had a good girl
Beautiful inside and out
It's like I cant get enough
What I have for you is love with them it's only lust
telling you Im up in the studio when I'm in the hotel
freaking 'em
When I promised to take the weekend off
But yet instead you stayed
And I see ya friends looking at me crazy
they dont wanna see me with you

But I need you in my life, I dont wanna pay the price.
I know its time for me to stop now!
girl I threw in the towel
Yeah
Cause now I keep myself what I choose
So I'mma do what I can and ta tell you the truth.
Believe me baby cause the best is all I can do-o oooh.

[Hook]

Girl I know I cheated on you before
I cant say I wont do it again
Stick by my side girl I know I can change
Sometimes I don't know what the fuck is wrong with me
Girl I know I cheated on you before
I cant say I wont do it a-gain
And what would I do-o without you yeah

I regret that.....?
And now it's time to make right
Somehow I know I will for you
No more coming home late staggering, yawning, going
to sleep snoring girl
I know that there is no one out there for me but you
I keep slipping (slipping) and slipping
I stopped for a minute (stopped)
then I'm right back cheating on you-u (you you you)

[harmonizing]

[Hook]

Girl I know I cheated on you before
I cant say I wont do it again
Stick by my side girl I know I can change
Sometimes I don't know what the fuck is wrong with me
Girl I know I cheated on you before
I cant say I wont do it a-gain
And what would I do-o without you yeah
