You and he been talking for a while.
So I never tried to push to be 'tween the two of us.
But soon as I saw that tear in your eye.
I only wish that I had told you that I.

I'd do whatever girl for, for you just because.
Because I'd be taking this love game so serious.
I won't be showing you up, it would be like I'm with her.
I will do for you, show you, wanna do for you girl.
Just to get to know you, never to control you.
Girl you gotta know, wanna do for you, girl.
Sometimes just to call you, when you need me there to
hold you.
Girl you gotta know, wanna do for you, girl.

I'ma stop all this playing, it's time for me (I made up my
mind)
I made up my mind to get off the side-lines.
Girl I'm here to show you how much you mean.
Your tears, just say goodbye.
Baby cause I.

I'd do whatever girl for, for you just because.
Because I'd be taking this love game so serious.
I won't be showing you up, it would be like I'm with her.
I will do for you, show you, wanna do for you girl.
Just to get to know you, never to control you.
Girl you gotta know, wanna do for you, girl.
Sometimes just to call you, when you need me there to
hold you.
Girl you gotta know, wanna do for you, girl.

Fabolous:
(Baby girl don't miss your blessing, nah don't do that.
Be back stressin', just wanna talk to you. Help you out,
show you what it look like baby)

Baby girl don't treat yourself, treat yourself.
Tryna play me, you only gon' beat yourself.
They said I cleaned up nice, you kinda neat yourself.
Say, somethin' missing. I can help you complete

yourself.
I'm on top, and most can't reach the shelf.
You heard about me, I'm the type you want to meet
yourself.
I listen, you aint gotta repeat yourself.
I'm from the hood and you grew up in the streets
yourself.
It's all I wanna do for you, stylist.
So if you pull a dress, I could probably pick a shoe for
ya'
Might be a lil, lil for ya (Might be)
But I would never sell you a dream.
You know ma, I'm loo for ya'
And everybody know that a queen fit a king (Yes)
I'm playing but only winners get seen with a ring.
Jeans with the wing, my rich young lady.
I'm just tryna figure out which young lady I'ma do for.

I'ma do for you, do for you like no one's ever done for
you girl.
Wanna do for you, I'ma hold you down, you don't even
have to say a word.
Wanna do for you, give you what you want, you know
what I have for you, you deserve.
I wanna do for you, wanna do for you, wanna do for
you girl.

Just to get to know you, never to control you.
Girl you gotta know, wanna do for you, girl.
Sometimes just to call you, when you need me there to
hold you.
Girl you gotta know, wanna do for you, girl.
