### "I Love Her"

(feat. Jim Jones)

*[Marques Houston Intro]*

I love her  
But I love you

*[Verse 1]*

Don't know if I want Keyshia, Felicia or Emma  
Theres something bout each one of them  
All of them special  
Been all around the world  
Theres so many girls with different qaulities  
Everyone seem to have something I want

*[Hook]*

Whooooooo  
I need that one  
Couple things slide out but I swear that shes the one  
Think I'm sure  
Tell me what this grown man should do  
I gotta have her but I want you to  
I'm so confused

*[Chorus]*

I love her  
I love you  
But I love her  
And her too  
They all could be the one  
So how can I pick one, one, one, one  
When I love them all

I love her  
I love you  
But I love her  
And her too  
They all could be the one  
So how can I pick one, one, one, one  
When I love them all

*[Verse 2]*

I love her but baby I love you  
Good with love, but moneys feeling nothing I can do  
Give me dear  
If only she could dress like you  
And you could walk the way she does Oooo Oooo

*[Hook]*

Whooooooo  
I need that one  
Couple things slide out but I swear that shes the one  
Think I'm sure  
Tell me what this grown man should do  
I gotta have her but I want you to  
I'm so confused

*[Chorus]*

I love her  
I love you  
But I love her  
And her too  
They all could be the one  
So how can I pick one, one, one, one

I love her  
I love you  
But I love her  
And her too  
They all could be the one  
So how can I pick one, one, one, one  
When I love them all

*[Jim Jones verse]*

I gotta have it, now what I'm gone do  
I gotta have her but I want her too  
So now I need help with my obsessions  
Im working on my addictions  
By stopping for all the pretty girls  
In the cars I be whippin

In my position, Im balling like the Pistons  
Im on fire  
I stop drop and I roll and I watch em get it  
They see the moon is like a vampire bit em  
I scoop em, hit em, and dip em turn em into honey  
dippas

The money gettas is what the ladies be callin us  
Acting like they ignoring us

Really they be on all of us

And all of us  
We can take a flight  
you, you, you and her  
And We can make it right

*[Chorus 2x]*

I love her  
I love you  
But I love her  
And her too  
They all could be the one  
So how can I pick one, one, one, one  
When I love them all

I love her  
I love you  
But I love her  
And her too  
They all could be the one  
So how can I pick one, one, one, one

I love her  
I love you  
But I love her  
And her too  
They all could be the one  
So how can I pick one, one, one, one  
When I love them all

I love her  
I love you  
But I love her  
And her too  
They all could be the one  
So how can I pick one, one, one, one  
When I love them all
