Kimberly, I'm so glad you made it
You're finally here
If these walls could talk they'll tell you secrets of how
I've been anticipating you
I know you want me to satisfy ya
and to gratify your desires
your body's whispering to my soul
telling me to take control

(Chorus)

Come along with me cus my ride don't stop
we can make love that the neighbors watch
open up the blinds let the whole world see
MH and Kimberly
Baby I can take you to that place
Where you can freely scream, touch and taste
I can make your fantasy.. reality.. Kimberly...
Kimberly..

Kimberly

You're crawling on my bed, climbing close to me
and I can hardly breathe, cos i still cant believe
lay your hand on my chest, gently lifting your knees..
slowly started grinding
hot hot destination ecstasy
first class tickets to it
no time for frontin do it
your tears got your eyeliner running down your face
youre so sexy I can feel your body shake
the ceiling fan's spinning
and the light is low
i got frequent flyer mileage
ooh
come on you ready?

the ceiling fan's spinning
and the light is low
i got frequent flyer mileage
theres no limit to how far I might go
to explore is the key
take me Kimberly

(Chorus)

Come along with me cus my ride don't stop
we can make love that the neighbors watch
open up the blinds let the whole world see
MH and Kimberly
Baby I can take you to that place
Where you can freely scream, touch and taste
I can make your fantasy.. reality.. Kimberly...
Kimberly..

Kimberly

Anytime you want me
Anytime you want me baby I'll be your playboy
Anytime you feel you want me baby
I'll be there to feel the force
Its like the call of the wild
Its like the call of the wild when we're making love
more than just physical (its more than just physical
Kimba)
deep inside of every woman there's a Kimberly
She's incredible... (She's incredible)

(Chorus)

Come along with me cus my ride don't stop
we can make love that the neighbors watch
open up the blinds let the whole world see
MH and Kimberly
Baby I can take you to that place
Where you can freely scream, touch and taste
I can make your fantasy.. reality.. Kimberly...
Kimberly..
