Girl you are the definition of a real woman  
I can be  
All the man you need oh but there's just one thing  
That I'm really trying to cope with it girl  
I want you to know that's  
All you need to know  
Cause every time I'm with you I freeze  
Look at what you do to me  
Beauty's got me all bottled up  
I'm going crazy  
Girl you got me speechless, speechless,  
Speechless, speechless, speechless, speechless,  
Speechless, speechless, speechless, babe

So baby I need your patients  
Cause I need time to think  
About  
What I'm going to say to you  
because the next time that we meet I  
Want to be so prepared  
Cause girl I got a problem  
And I just got get over it  
Whenever I'm with you I freeze up  
Look what you do to me  
Your beautys got me all bottled up  
Cause girl you got me speechless, speechless,  
Speechless, speechless, speechless, speechless,  
Speechless, speechless, speechless  
Baby I'm a do my best  
To get close to you  
Cause you the perfect one for me  
The one I'm not gone lose  
Cause every time I'm with you I freeze  
I freeze up  
Cause beauty's got me all  
Bottled up  
Girl you got me speechless, speechless,
